Our Goal: To raise enough money to purchase Vital Signs Monitors for the Maternity (Obstetrics) Unit at the Victoria Regional Hospital. More than 1,600 babies are delivered each year at the Victoria Regional Hospital. No child ever asks to be born sick or with serious medical challenges. With the proper up-to-date medical equipment our doctors, nurses and care teams can do what they are trained to do. Timely medical intervention and treatment with the right equipment at the right time can have a huge impact on medical outcomes resulting in positive changes which can last a lifetime.
